SAFETY HOOK SYSTEMS

MAKEFAST DOUBLE ACTION SAFETY HOOK

The revolutionary Makefast Safety Hook surpasses all current standards in providing absolute security in all situations. Unlike other products the Makefast Safety Hook cannot be inadvertently opened, because of our unique double action locking system.

- Fixes to attachments up to 19mm (0.75 inches) in diameter
- Unique double action safety locking system
- Impossible to open accidentally
- Single handed operation

The Makefast Safety Hook prevents accidental opening by using a DOUBLE ACTION LOCK. If one lever is opened the hook DOES NOT OPEN. Both locks must be operated to open.

Part number 0200 - Specifications
